

# Pipe Wrap | (R-2.0)

## InfraStop<sup>®</sup> Installation Instructions

1. InfraStop<sup>®</sup> Insulation
2. Water Pipe

### Tools Required:

- Safety Glasses
- Tape Measure
- Utility Knife/Scissors

### Recommended Products:

Reflective/Bubble/Bubble/Reflective - Roll: ISFDF24025 (24"x 25'), ISFDF48025 (48"x 25')  
Spiral Pipe Wrap, Reflective/Bubble/Bubble/Reflective - Roll: ISPW02025 (2"x 25'),  
ISPW04025 (4"x 25'), ISPW06025 (6"x 25')

### Installation Instructions:

#### 1. Spiral Pipe Wrap

- When utilizing the "ISPW" product, spiral wrap the product overlapping a minimum of 1/2" inch. Securely tape the seams with a InfraStop<sup>®</sup> Foil Tape (goal is an air-tight, snug seam seal).
- When utilizing the "ISFDF" product, cut into 2" or 4" wide strips. Then, follow the directions above for the "ISPW" product.

## Review These Important Safety Guidelines Prior to Installation:

- **ALWAYS** check local building codes before installing InfraStop®.
- **ALWAYS** check the area you are insulating and make any needed repairs. Any worn wiring should be replaced before you begin installing InfraStop®.
- **ALWAYS** make sure work areas are well ventilated and well lighted.
- **ALWAYS** use eye protection when operating a staple gun.
- **ALWAYS** use caution and common sense when using a staple gun. Be aware of where electrical wiring is located. Stapling into a wire can cause severe shock or death. **NEVER** staple into electrical wiring.
- **ALWAYS** be careful when working with large pieces of InfraStop® on windy days.
- When installing InfraStop® on bright sunny days, it is best to wear sun glasses.
- Do not work in areas such as attics when temperatures are too hot.
- Visit our website at [www.insulationstop.com](http://www.insulationstop.com) for additional product and installation information.

### **Please Note:**

*The intention of these Installation Instructions and 3-D renderings are for the sole purpose of illustrating the correct location and relative position of the InfraStop® products in specific building assemblies. The correct construction methods and techniques are the responsibility of the installer or contractor. The methods outlined are recommendations on location of the InfraStop® products as a guideline. There are no claims on the part of InfraStop® that these building assemblies are finite standards or meet building code requirements (as they can vary by region).*
